SCI GIOVANI

SCI Giovani, the *Young Group* of Società Chimica Italiana, gathers all the SCI members who are younger than 35 years old. Counting more than 1400 members, spread across the 14 SCI Divisions, our group represents more than one third of the whole Italian Chemical Society.

Every three years the young fellows elect a representative within each Division. All the representatives make up the Young Group Board [1], which is in charge of planning and organizing all the activities of the Group.

You can find here all the news about the initiatives promoted by the Group, and more in details about our Events [2] and Awards [3].

Keep in touch with us, following our social pages: Facebook [4] | Twitter [5] | Instagram [6] | LinkedIn [7] or sending us an e-mail [8].

Marta Da Pian
SCI Giovani Coordinator

BREAKING NEWS

► Primo Levi Award 2019: the finalists!
We have announced the 10 candidates for the Primo Levi Award who have gained access to the second evaluation step!
Good luck to all of them!

HERE the list of the finalists with links to their videos and articles! [9]

► New Board Member!
We are happy to welcome in the SCI Giovani Board *Claudio IMPARATO*, post-doc fellow at the University of Naples Federico II, co-opted as a delegate of the Division of Chemistry for Technologies.

HERE the updated Board team! **[10]**
